

TRANSITIONS

to separate examples within a paragraph

FIRST (to replace the overused “first”)

- One good example is
- An interesting fact is
- First of all
- Initially
- One piece of evidence that points to this is
- It is important to note that
- The first good piece of evidence is
- One way to look at this is through
- One example that proves this is
- One example that suggests this is
- There are several examples that show this and one of them is
- First and foremost
- A good first example of this is
- It is important to first note that
- One notable example is
- The first indication of this is
- To begin with
- When looking over the evidence, it is clear that the first...
- One reason is
- One way this is true is
- In the beginning
- On one hand, there is
- A great example is
- One example that stands out is
- Probably the best example to begin (start) with is
- The best place to start is with
- This can first be seen when
- For example
- For instance
- The first instance that comes to mind is when...
- This can be clearly seen first of all when...

These are only some generic examples. Transitions can be more specialized around your own topic as well.

EXAMPLE: You are writing a paper on the “NO HAT POLICY”

you can “customize” your transitions like this:

A good first example of the hat policy in action was when.....

SECOND (to replace the overused “second”)

- Another good example is
- Another interesting fact is
- Second of all
- Secondly
- Furthermore
- A great second example is
- Another good piece of evidence is
- Another way to look at this is through
- Another example that proves this is
- Another example that suggests this is
- Another great example that helps support this is
- Second and even more importantly
- The second good example is
- Yet another good reason (example) is
- Yet another piece of evidence is
- Another indication of this is
- Still
- Even so
- In the same way
- Next
- The next example (idea, reason, piece of evidence)
- On the other hand, there is
- Even more compelling is
- Another example that stands out is
- Similarly
- Likewise
- Along with that, there is
- Moreover
- In addition
- Adding to that
- In addition to that
- Still another great example is
- Then again, another stronger example is
- Of course
- Also
- In the same light
- Even more interesting is
- Adding to the first example is
- Making an even stronger case is
- An even better example of this is
- Equally as interesting was
- While the first example is good, an even better one is
- To add even more fuel to the fire
- To add another even more interesting fact
- An additional fact is
- Another strong indication was when
- Another quote that supports this is

THIRD or FINAL (to replace the overused “third” and “finally”)

- A final example (fact, reason)
- And finally
- Lastly
- Last of all
- A final great example is
- The third and final example is
- The final good piece of evidence is
- The best way to look at this is through
- The final example that proves this is
- The last example that suggests this is
- The last (final) example that helps support this is
- Third and even more importantly
- The third good example is
- Yet the best reason (example) is
- The last (final) indication of this is
- Most compelling is
- Even so
- The best and final reason is
- On top of that
- The last example (idea, reason, piece of evidence)
- Best of all
- The final example to note
- The last example that stands out is
- Most importantly
- Accordingly
- Along with the first two examples, there is
- Moreover
- In addition to the first two
- Adding to those
- In addition to those
- Still another great example is
- Then again, the strongest example is
- Of course
- But most conclusive is
- In the same light
- A perfect final reason (example, fact) is
- Adding to the first two examples is
- Making an even stronger case is
- An even better example of this is
- The last place this can be seen is when
- While the first two examples are good, an even better one is
- To add even more fuel to the fire
- To add a final, even more interesting fact
- A good way to really show this is true is
- This is best seen in the part when
- Yet the best quote that shows this is

IN CONCLUSION (the “CON” part of MEL-Con)
(to replace the overused “in conclusion” or “all in all” at the end of a paragraph)

- So, it is clear to see that
- Summing this whole thing up
- Accordingly
- In summary
- Consequently
- Thus
- As a result
- In short
- Therefore
- So
- The evidence clearly points
- All of this together means
- Put it all together and
- The best way to sum it up is
- With all of this
- The three examples,....., prove that....
- And so therefore
- For all of these reasons,....., one can see that.....
- This all adds up to one conclusion
- So, when studying all of the reasons
- With all of this in mind
- Due to all of these reasons
- Together
- One can see that
- The evidence is clear
- No one can argue that
- And so it is
- Yes, it is evident that
- Truly
- To reemphasize
- To repeat
- Again
- Indeed
- Of course
- There is no doubt that
- There is no argument that
- With all of these examples
- In total
- When looking at all of the possibilities
- Clearly
- Yes, it is true then
- So, when looking at the facts, it is evident that
